

ADVANCED PLANNING FOR PEOPLE WITH CANCER

The COVID-19 pandemic has reinforced that a person's health can change rapidly. Whether affected by COVID or not, it's a reminder that a person with cancer may require more specialized care. By planning in advance, people diagnosed with cancer can help ensure that their wishes about treatment will be followed. This webinar will encourage people to plan ahead to ensure that their loved ones – and assets – are protected. It will provide an overview of advanced healthcare directives, powers of attorney for financial affairs, and wills and trusts.
